

Silver & Pearls

PROJECT

MATERIALS

28 x Thai silver charms – 2 sets of 14

1 x clasp

1m x Tigertail black

4 x crimps

1 x Thai silver charm for extension

Extension chain

BEADS

15 x Thai silver beads

4 x black onyx large

26 x black onyx small

TOOLS

Chain nose pliers

Round nose pliers

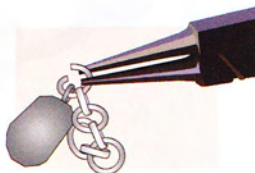

Wire cutters

LENGTH: 50cm, or as desired.

Create your own silver dream by making it yourself using semi-precious onyx beads and Thai silver. This is the necklace you see displayed in the jewellers and cannot afford.

STEP ONE

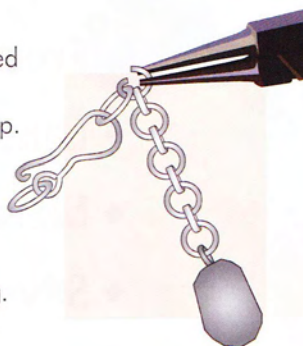

Attach the finishing charm to the extension chain by gently cutting open one ring of extension chain; use the pliers to open and attach the charm, finish by closing the ring.

Design note: All items used in this necklace are suggestions only. You can combine any of the Thai silver beads, silver charms, or semi-precious beads, to personalise this design to your taste.

STEP TWO

Attach the completed extension chain to the ring end of clasp. Using cutters to open the last ring on the chain, open with pliers (adding to clasp); close ring. Set aside the clasp.

STEP THREE

Using Tigertail thread 2 x crimps onto one end, looping through the clasp ring and back into crimp; flatten the crimps using chain nose pliers.

STEP FOUR

Lay out charms and beads in the order to be attached onto the chain.

Follow the diagram below for the layout:

- Small onyx, large round silver, small onyx, small flower bud, small flower, small onyx. Repeat this routine for total of five times.
- Random shape, small onyx, small flower bud, small flower, small onyx.
- Random shape, large onyx bead, small flower bud, small flower, large onyx. Repeat routine Step 4 'c' another time. Repeat routine Step 4 'b' once. Repeat routine Step 4 'a' (in reverse order) five times to finish the beading.

STEP FIVE

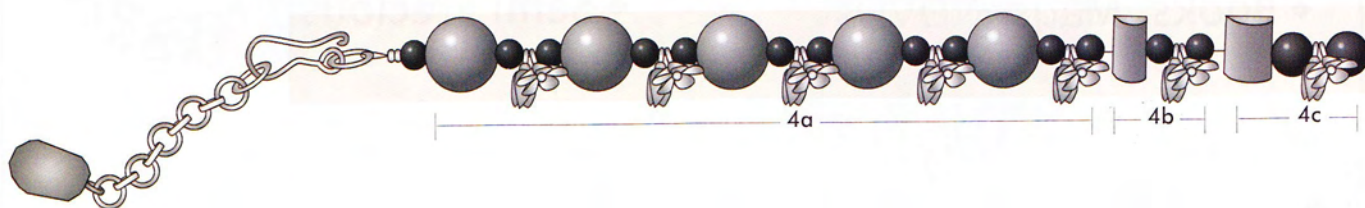

To complete necklace ends, thread 2 x crimps into one end; looping through the second clasp ring fold the crimps closed using chain nose pliers.

KIT: Total wholesale cost \$175 beads and silver available.
